

## GoForestry

GoForestry.ca has been visited by thousands of students across Canada and around the Globe. New content is being added to the site on a regular basis. Some of the many site features include:

- A video site host
- A series of forestry career profile videos
- A searchable `find a career` area
- Information on student loans and educational options, etc.

In our efforts to increase the visibility of the GoForestry.ca web portal among students and the general public, we are asking forestry related organizations to add a [www.GoForestry.ca](http://www.GoForestry.ca) link in an appropriate area of their site. We can also provide you with the GoForestry logo to use as the link. We appreciate your support and invite you to visit GoForestry.ca (or Verslaforesterie.ca for Français). If you have any further questions, please feel free to contact us.

GoForestry

The GoForestry program is an initiative of the Counsel for forestry promotion and recruitment (CFPR). The CFPR is a multi stakeholder group composed of public and private organizations with an interest in healthy and sustainable forest management, research, protection and conservation to ensure economic and social growth of communities for today and future generations. A list of partners can be found on the GoForestry site.
